It's amazing how fast time flies. It was yesterday, it seems, I was preparing for FENA's second Annual Review. Now, I find myself preparing for FENA's third Annual Review. This is very exciting! I am proud of myself because I have carefully followed the instructions that have facilitated me with both my poster and abstract preparations. I have taken careful note to correspond with the poster size and with the abstract formatting requirements. Regarding my abstract, I also have the option of including one illustration. But I must beware. The total text and illustration shall not exceed one page. Busy people would love this format, as it will give them a quick dose of my research and attract them to my poster. Once I am finished composing my abstract, I will send it in *.doc format to the friendly and hardworking people at FENA jwong@ea.ucla.edu by **Friday, January 5th**. I will make sure to contact Katie Christensen at 310-825-8144 if I have any questions.
