

# FENA Student Meeting

## Theme 4: Novel Heterogeneous Nanodevices

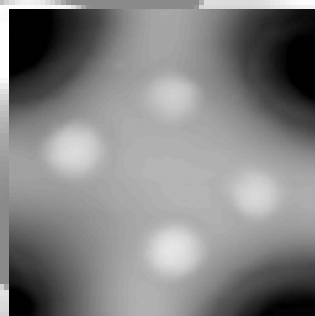

**Boelter Hall 8500 (Penthouse)**  
**Thursday, Aug. 4, 2005, 12:00-1:00 PM**

**Alex Khitun: "Logic Devices with Spin Wave Bus"**

**George Chu: "Organic donor-acceptor system exhibiting electrical bistability for use in memory devices"**

**Joo-Young Lee: "Enhanced Hall mobility and low dislocation density in Si<sub>1-x</sub>Ge<sub>x</sub> epitaxial layers grown by MBE on a patterned template"**

**Lunch and refreshments will be provided**
